

ANZ KIWISAVER SCHEME HIGH GROWTH FUND

This fund update was first made publicly available on: 29 October 2025

WHAT IS THE PURPOSE OF THIS UPDATE?

This document tells you how the High Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. ANZ New Zealand Investments Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

DESCRIPTION OF THIS FUND

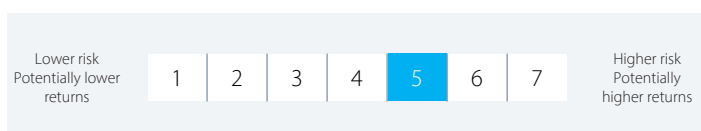

The High Growth Fund invests in growth assets (equities, listed property and listed infrastructure), with a very small exposure to income assets (cash and cash equivalents and fixed interest). The fund may also invest in alternative assets.

The High Growth Fund aims to achieve (after the fund charge and before tax) over the long term higher returns, allowing for larger ups and downs in value.

Total value of the fund (\$)	667,576,525
Number of investors in the fund	21,867
The date the fund started	3 August 2023

WHAT ARE THE RISKS OF INVESTING?

Risk indicator for the High Growth Fund¹:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://sorted.org.nz/tools/investor-profiler>.

Note that even the lowest category does not mean a risk-free investment, and there may be other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years ended 30 September 2025. The High Growth Fund opened for investment on 3 August 2023, so a mix of market index returns and the fund's actual returns have been used to calculate the risk indicator for the five-year period to 30 September 2025. Market index returns have been used for the period 1 October 2020 to 31 July 2023. As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

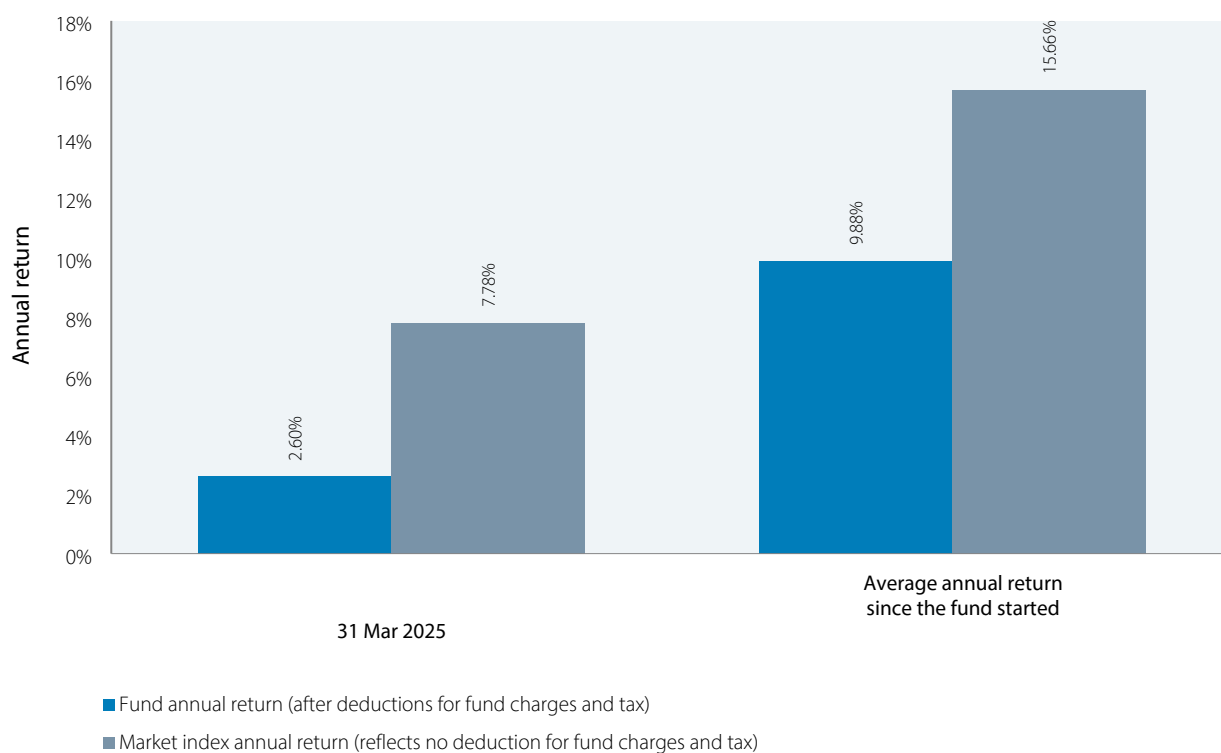

HOW HAS THE FUND PERFORMED?

	Past year
Annual return (after deductions for charges and tax)	11.94%
Annual return (after deductions for charges but before tax)	12.31%
Market index annual return (reflects no deductions for charges and tax)	16.12%

The market index annual return is calculated using the target investment mix and the indices of each asset class.

Additional information about the market index is available in the statement of investment policy and objectives on the offer register at www.disclose-register.companiesoffice.govt.nz.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 September 2025.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

WHAT FEES ARE INVESTORS CHARGED?

Investors in the High Growth Fund are charged fund charges. In the year to 31 March 2025 these were:

	% of net asset value
Total fund charges ²	0.95%*
Which are made up of:	
Total management and administration charges	0.95%
Including:	
Manager's basic fee	0.92%
Other management and administration charges	0.03%
Total performance based fees	0.00%

	Dollar amount per investor
Other charges	\$0

*The manager expects the fund charges for the next scheme year will be less than the fund charges disclosed in this fund update because the manager's basic fee was reduce to 0.91% effective 1 August 2024.

Investors are not currently charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about Scheme fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

EXAMPLE OF HOW THIS APPLIES TO AN INVESTOR

Sarah had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Sarah received a return after fund charges were deducted of \$1,194 (that is 11.94% of her initial \$10,000). Sarah did not pay any other charges. This gives Sarah a total return after tax of \$1,194 for the year.

NOTES

1. The High Growth Fund opened for investment on 3 August 2023, so a mix of market index returns and the fund's actual returns have been used to calculate the risk indicator for the five-year period to 30 September 2025. Market index returns have been used for the period 1 October 2020 to 31 July 2023. As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.
2. Our fund charges are inclusive of GST, where applicable.
3. The target and actual investment mix of this fund and currency hedging information are based on:
 - the cash and cash equivalents held by the fund, and
 - the asset class of the underlying funds in which the fund invests.They are not based on the cash and cash equivalents or any other assets held by the underlying funds.
4. This is an allocation to listed infrastructure.
5. The fund may obtain exposure to an asset class via derivatives that are backed by cash and cash equivalents, and/or fixed interest. Where applicable, the top 10 investments table discloses the cash and cash equivalents, and/or fixed interest, not the derivatives.
