

Fund Update for the quarter ended 31 December 2021

ANZ Default KiwiSaver Scheme

Conservative Balanced Fund

This fund update was first made publicly available on: 14 February 2022

What is the purpose of this update?

This document tells you how the Conservative Balanced Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. ANZ New Zealand Investments Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Conservative Balanced Fund invests mainly in income assets (cash and cash equivalents and fixed interest), with some exposure to growth assets (equities, listed property and listed infrastructure). The fund may also invest in alternative assets.

The Conservative Balanced Fund aims to achieve (after the fund charge and before tax) over the long-term a modest to moderate yearly return allowing for modest to moderate movements of value up and down including occasional negative yearly returns.

Total value of the fund (\$)	105,931,588
Number of investors in the fund	2,440
The date the fund started	1 October 2007

What are the risks of investing?

Risk indicator for the Conservative Balanced Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at anz.co.nz/riskprofiletool.

Note that even the lowest category does not mean a risk-free investment, and there may be other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years ended 31 December 2021. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

How has the fund performed?

	Average over past five years	Past year
Annual return (after deductions for charges and tax)	5.79%	5.70%
Annual return (after deductions for charges but before tax)	6.75%	5.79%
Market index annual return (reflects no deduction for charges and tax)	6.74%	5.15%

The market index annual return is calculated using the target investment mix and the indices of each asset class.

Additional information about the market index is available in the statement of investment policy and objectives on the offer register at www.disclose-register.companiesoffice.govt.nz.

Annual return graph

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 December 2021.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Conservative Balanced Fund are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges^{1*}	0.91%
<i>Which are made up of:</i>	
Total management and administration charges	0.91%
<i>Including:</i>	
Manager's basic fee	0.85%
Other management and administration charges	0.06%
Total performance based fees	0.00%

	Dollar amount per investor
Other charges	
Membership fee ²	\$18

*The manager expects that the fund charges for the next scheme year will be less than the fund charges disclosed in this fund update because the manager's basic fee was reduced effective 30 September 2021 from 0.85% to 0.70% per year.

Investors are not currently charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds).

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Sarah had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Sarah received a return after fund charges were deducted of \$570 (that is 5.70% of her initial \$10,000). Sarah also paid \$13.50 in other charges. This gives Sarah a total return after tax of \$556.50 for the year.
