

# ONEANSWER KIWISAVER SCHEME HIGH GROWTH FUND

This fund update was first made publicly available on: 30 April 2024

## WHAT IS THE PURPOSE OF THIS UPDATE?

This document tells you how the High Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. ANZ New Zealand Investments Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

## DESCRIPTION OF THIS FUND

The High Growth Fund invests in growth assets (equities, listed property and listed infrastructure), with a very small exposure to income assets (cash and cash equivalents and fixed interest). The fund may also invest in alternative assets.

The High Growth Fund aims to achieve (after the fund charge and before tax) over the long term higher returns, allowing for larger ups and downs in value.

Total value of the fund (\$)	18,413,786
Number of investors in the fund	352
The date the fund started	3 August 2023

## WHAT ARE THE RISKS OF INVESTING?

Risk indicator for the High Growth Fund<sup>1</sup>:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [anz.co.nz/OA-riskprofiletool](http://anz.co.nz/OA-riskprofiletool).

Note that even the lowest category does not mean a risk-free investment, and there may be other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years ended 31 March 2024. The High Growth Fund opened for investment on 3 August 2023, so a mix of market index returns and the fund's actual returns have been used to calculate the risk indicator for the five-year period to 31 March 2024. Market index returns have been used for the period 1 April 2019 to 31 July 2023. As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

## HOW HAS THE FUND PERFORMED?

	Past year
<b>Annual return</b> (after deductions for charges and tax)	N/A
<b>Annual return</b> (after deductions for charges but before tax)	N/A
<b>Market index annual return</b> (reflects no deductions for charges and tax)	19.53%

The market index annual return is calculated using the target investment mix and the indices of each asset class.

Additional information about the market index is available in the statement of investment policy and objectives on the offer register at [www.disclose-register.companiesoffice.govt.nz](http://www.disclose-register.companiesoffice.govt.nz).

## WHAT FEES ARE INVESTORS CHARGED?

Investors in the High Growth Fund are charged fund charges. Based on the PDS dated 3 August 2023, these are estimated to be:

	% of net asset value
Total fund charges <sup>2</sup>	1.03%
Which are made up of:	
Total management and administration charges	1.03%
Including:	
Manager's basic fee	0.95%
Other management and administration charges	0.08%
Total performance based fees	0.00%

Other charges	Dollar amount per investor
Other charges	\$0

Investors are not currently charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about Scheme fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

### EXAMPLE OF HOW THIS APPLIES TO AN INVESTOR

Sarah had \$10,000 in the fund at 3 August 2023 (the date the fund started) and did not make any further contributions. At 31 March 2024, Sarah received a return after fund charges were deducted of \$734 (that is 7.34% of her initial \$10,000). Sarah did not pay any other charges. This gives Sarah a total return after tax of \$734 for the period.

## FURTHER INFORMATION

You can also obtain this information, the PDS for the OneAnswer KiwiSaver Scheme, and some additional information from the offer register at [www.disclose-register.companiesoffice.govt.nz](http://www.disclose-register.companiesoffice.govt.nz).

## NOTES

1. The High Growth Fund opened for investment on 3 August 2023, so a mix of market index returns and the fund's actual returns have been used to calculate the risk indicator for the five-year period to 31 March 2024. Market index returns have been used for the period 1 April 2019 to 31 July 2023. As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.
2. Our fund charges are inclusive of GST, where applicable.
3. The target and actual investment mix of this fund are based on:
  - the cash and cash equivalents held by the fund, and
  - the asset class of the underlying funds in which the fund invests.They are not based on the cash and cash equivalents or any other assets held by the underlying funds.
4. This is an allocation to listed infrastructure.
5. Key personnel not named in previous fund update for the fund.
