

ANZ INVESTMENTS SINGLE-ASSET-CLASS SCHEME (marketed as the OneAnswer Single-Asset-Class Funds) INTERNATIONAL PROPERTY FUND

This fund update was first made publicly available on: 30 April 2024

WHAT IS THE PURPOSE OF THIS UPDATE?

This document tells you how the International Property Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. ANZ New Zealand Investments Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

DESCRIPTION OF THIS FUND

The International Property Fund invests mainly in international listed property assets. Investments may include companies, funds or trusts that invest in property and are listed or are soon to be listed, and cash and cash equivalents.

The fund aims to achieve a positive yearly return (after the fund charge and before tax) that over the long-term outperforms the relevant market index.

Total value of the fund (\$)	261,342,382
The date the fund started	19 September 2013

WHAT ARE THE RISKS OF INVESTING?

Risk indicator for the International Property Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there may be other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years ended 31 March 2024. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

HOW HAS THE FUND PERFORMED?

	Average over past five years	Past year
Annual return (after deductions for charges and tax)	0.95%	9.13%
Annual return (after deductions for charges but before tax)	1.16%	9.16%
Market index annual return (reflects no deductions for charges and tax)	-0.33%	7.20%

The market index annual return shows the return of the FTSE EPRA Nareit Developed Rental Net Total Return Index (100% hedged to the New Zealand dollar).

Additional information about the market index is available in the statement of investment policy and objectives on the offer register at www.disclose-register.companiesoffice.govt.nz.

Annual return graph

This shows the return after fund charges and tax for each of the year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2024.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

WHAT FEES ARE INVESTORS CHARGED?

Investors in the International Property Fund are charged fund charges. In the year to 31 March 2023 these were:

	% of net asset value
Total fund charges ¹	1.09%*
Which are made up of:	
Total management and administration charges	1.09%
Including:	
Manager's basic fee	1.00%
Other management and administration charges	0.09%
Total performance based fees	0.00%

	Dollar amount per investor
Other charges	\$0

*The manager expects that the fund charges for the next scheme year will be less than the fund charges disclosed in this fund update because the manager's basic fee was reduced effective 3 August 2023 from 1.00% to 0.95% per year.

Investors are not currently charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about Scheme fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

EXAMPLE OF HOW THIS APPLIES TO AN INVESTOR

Sarah had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Sarah received a return after fund charges were deducted of \$913 (that is 9.13% of her initial \$10,000). Sarah did not pay any other charges. This gives Sarah a total return after tax of \$913 for the year.

WHAT DOES THE FUND INVEST IN?

Actual investment mix²

This shows the types of assets that the fund invests in.

■ Cash and cash equivalents: 0.01%
■ Listed property: 99.99%
