WELCOME

I'm pleased to present the annual report for the ANZ KiwiSaver Scheme (the scheme).

The 2018 year was another positive one for investment markets. Global share prices rose as a result of growth in the world's major economies and a better environment for company earnings. New Zealand shares stood out, thanks to the strong performances of several local businesses on the international stage.

Over the year, those of our funds invested mainly in growth assets delivered stronger returns – although all funds made positive gains. You can see this performance in the chart over the page.

I'm also pleased to highlight the following achievements:

- The scheme was awarded a 'Platinum' rating for the fourth year in a row by independent research company SuperRatings*. This is the highest possible rating, awarded to only a few providers.
- Our multi-asset-class funds also have a Morningstar Analyst Rating™ of 'Silver', assigned on 16 March 2018*. Silver is currently the highest rating for a multi-asset-class fund in a KiwiSaver scheme.
- We extended our commitment to responsible investing by signing up to the Principles for Responsible Investment – a United Nations-supported framework that helps companies integrate environmental, social and governance factors into their investment processes.

- We provided new easy-to-read account statements with personalised information including the fees you paid, as a dollar amount.
- We've made significant investment into a new registry system for an improved customer experience – now and into the future.

Finally, we've continued to reinforce our stance on the importance of returns *after* fees. Taking into account our long-term investment performance, as well as the support and education we provide, we believe we offer great value for members.

My thanks for choosing to invest with ANZ Investments. It's our goal to put you at the centre of everything we do and to help you achieve your financial goals.

INVESTMENT PERFORMANCE SINCE LAUNCH

In this chart, each line represents the growth of \$1,000 invested in the fund at launch. For example, an investment of \$1,000 in the Balanced Fund on 1 October 2007 (with no further contributions made) would have grown to \$1,904 by 31 March 2018.

The chart also shows how the funds with a larger allocation to growth assets generally have larger movements up and down in value. The calculation shows actual historical returns. Values have been rounded down to the nearest dollar.

● Balanced – \$1,904 ● Balanced Growth – \$1,958

*All performance is after the annual fund charge and before tax. This is represented by changes in the unit price plus any applicable tax credits. Past performance is not indicative of future performance. Performance can be negative as well as positive. The launch date for all funds, except the Cash Fund, was 1 October 2007.
