### Other Matters

APRA has reviewed the level of exposures that can be provided to the respective New Zealand banking subsidiaries and branches (New Zealand operations) of the four Australian parent banks, including the Ultimate Parent Bank.

APRA has confirmed that by 1 January 2021 no more than 5% of the Ultimate Parent Bank's Level 1 Tier 1 capital can comprise non-equity exposures to its New Zealand operations during ordinary times. Exposures in excess of this limit must be reduced in equal percentages over the five year transition period and may not increase above the exposures as at 30 June 2015. This limit does not include holdings of capital instruments or eligible secured contingent funding support provided to the Bank during times of financial stress.

The Ultimate Parent Bank established a New Zealand branch which was registered on 5 January 2009. The Bank sells, from time-to-time, residential loans and mortgages into the NZ Branch to provide funding for the Bank's business. As at 31 December 2015, the NZ Branch held approximately NZ\$7.5 billion of residential loans. To satisfy APRA's requirements described above, the Bank intends to repay this funding at approximately NZ\$1.6 billion per annum over the next five years.

APRA has also clarified that contingent funding support by the Ultimate Parent Bank to the Bank during times of financial stress must be provided on terms that are acceptable to APRA and, in aggregate with all other exposures to its New Zealand operations, must not exceed 50% of the Ultimate Parent Bank's Level 1 Tier 1 capital. At present, only covered bonds meet APRA's criteria for contingent funding. On this basis, we believe that the Ultimate Parent Bank will continue to be able to provide financial support to the Bank.

### Changes to Conditions of Registration

The conditions of registration applying to the Ultimate Parent Bank were amended on 1 November 2015 to reflect the full application of the Financial Reporting Act 2013. Adoption of these amendments has not resulted in any material change to ANZ New Zealand's reported result or financial position.

Michael Smith retired as Chief Executive Officer and Executive Director on 31 December 2015.

Shayne Elliott became Chief Executive Officer and Executive Director on 1 January 2016.

### Auditor

ANZ New Zealand's auditor is KPMG, Chartered Accountants, Level 9, 10 Customhouse Quay, Wellington, New Zealand.

### 3. SEGMENT ANALYSIS

ANZ New Zealand is organised into four major business segments for segment reporting purposes - Retail, Commercial, Wealth and Institutional. Centralised back office and corporate functions support these segments. These segments are consistent with internal reporting provided to the chief operating decision maker, being the Bank's Chief Executive Officer.

Segmental reporting has been updated to reflect minor changes to ANZ New Zealand's structure. Comparative data has been adjusted to be consistent with the current period's segment definitions.

#### Retail

Retail provides products and services to Retail and Business Banking customers via the branch network, mortgage specialists, the contact centre and a variety of self service channels (internet banking, phone banking, ATMs, website and mobile phone banking). Retail customers have personal banking requirements and Business Banking customers consist primarily of small enterprises with annual revenues of less than NZ\$5 million. Core products include current and savings accounts, unsecured lending (credit cards, personal loans and overdrafts) and home loans secured by mortgages over property. The Retail segment distributes insurance and investment products on behalf of the Wealth segment.

#### Commercial

Commercial provides services to Commercial & Agri (CommAgri) and UDC customers. CommAgri customers consist of primarily privately owned medium to large enterprises. Commercial's relationship with these businesses ranges from simple banking requirements with revenue from deposit and transactional facilities, and cash flow lending, to more complex funding arrangements with revenue sourced from a wider range of products. UDC is principally involved in the financing and leasing of plant, vehicles and equipment, mainly for small and medium sized businesses, as well as investment products.

#### Wealth

Wealth comprises the Private Wealth, Funds Management and Insurance businesses, which provide private banking, investment, superannuation and insurance products and services.

#### Institutional

Institutional provides financial services through a number of specialised units to large multi-banked corporations, often global, which require sophisticated product and risk management solutions. Those financial services include loan structuring, foreign exchange, wholesale money market services and transaction banking.

#### Other

Other includes treasury and back office support functions, none of which constitutes a separately reportable segment.

The assets of the Covered Bond Trust are not available to creditors of the Bank, although the Bank (or its liquidator or statutory manager) may have a claim against the residual assets of the Covered Bond Trust (if any) after all prior ranking creditors of the Covered Bond Trust have been satisfied.

ANZ New Zealand continues to recognise the assets of the Covered Bond Trust on its balance sheet as, although they are pledged as security for covered bonds, the Bank retains substantially all the risks and rewards of ownership.

Off balance sheet exposures include undrawn and partially drawn residential mortgage loans as well as commitments to lend. Commitments to lend are formal offers for housing lending which have been accepted by the customer.

### 12. FAIR VALUE MEASUREMENTS

#### Financial assets and financial liabilities not measured at fair value

Below is a comparison of the carrying amounts as reported on the balance sheet and fair value of financial asset and liability categories other than those categories where the carrying amount is at fair value or considered a reasonable approximation of fair value.

The fair values below have been calculated using discounted cash flow techniques where contractual future cash flows of the instrument are discounted using discount rates incorporating wholesale market rates or market borrowing rates of debt with similar maturities or a yield curve appropriate for the remaining term to maturity.

<sup>1</sup> Fair value hedging is applied to certain financial instruments within these categories. The resulting fair value adjustments mean that the carrying value differs from the amortised cost.

<sup>2</sup> Includes commercial paper (note 8) designated at fair value through profit or loss.

#### Financial assets and financial liabilities measured at fair value in the balance sheet

ANZ New Zealand uses a valuation method within the following hierarchy to determine the carrying amount of assets and liabilities held at fair value, all of which are recurring fair value measurements. There are no assets or liabilities measured at fair value on a non-recurring basis.

- Level 1 – Financial instruments that have been valued by reference to unadjusted quoted prices in active markets for identical financial instruments. This category includes financial instruments valued using quoted yields where available for specific debt securities.
- Level 2 – Financial instruments that have been valued through valuation techniques incorporating inputs other than quoted prices within Level 1 that are observable for a similar financial asset or liability, either directly or indirectly.
- Level 3 – Financial instruments that have been valued using valuation techniques which incorporate significant inputs that are not based on observable market data (unobservable inputs).

There have been no substantial changes in the valuation techniques applied to different classes of financial instruments during the period.

### 13. CONCENTRATIONS OF CREDIT RISK TO INDIVIDUAL COUNTERPARTIES

ANZ New Zealand measures its concentration of credit risk to bank counterparties on the basis of approved exposures, and to non-bank counterparties on the basis of limits.

For the three months ended 31 December 2015 there were no individual counterparties, excluding connected parties, governments and banks with long term credit ratings of A- or above, where ANZ New Zealand's period end or peak end-of-day credit exposure equalled or exceeded 10% of the Overseas Banking Group's equity as at the end of the period.

This credit exposure information does not include exposures to counterparties if they are booked outside New Zealand.

### 14. INSURANCE BUSINESS

ANZ New Zealand conducts insurance business through its subsidiary OnePath Life (NZ) Limited (OnePath Life).

ANZ New Zealand's aggregate amount of insurance business comprises the total assets of OnePath Life of NZ\$881 million (31/12/2014: NZ\$902 million; 30/09/2015 NZ\$884 million), which is 0.6% (31/12/2014: 0.7%; 30/09/2015 0.6%) of the total consolidated assets of ANZ New Zealand.

ANZ New Zealand guarantees the performance of customers by issuing standby letters of credit and guarantees to third parties, including its Ultimate Parent Bank. The risk involved is essentially the same as the credit risk involved in extending loan facilities to customers, therefore these transactions are subjected to the same credit origination, portfolio management and collateral requirements for customers applying for loans. As the facilities may expire without being drawn upon, the notional amounts do not necessarily reflect future cash requirements.

#### Other contingent liabilities

On 11 March 2013, litigation funder Litigation Lending Services (NZ) Limited announced plans for a representative action against banks in New Zealand for certain fees charged to New Zealand customers over the past six years. Proceedings were filed against the Bank on 25 June 2013. The potential outcome of this litigation cannot be determined with any certainty at this stage.

ANZ New Zealand has other contingent liabilities in respect of actual and possible claims and court proceedings.

An assessment of ANZ New Zealand's likely loss in respect of these matters has been made on a case-by-case basis and provision made where deemed necessary.
