

News Release

For release: 14 July 2017

New technology for refreshed ANZ Takapuna branch

The newly renovated ANZ Takapuna branch opened its doors on July 5th 2017, equipped with new technology to make it quicker and easier for customers to do their banking.

Ngāti Whātua Ōrākei blessed the site which coincided with Matariki, a celebration of new beginnings.

Customers visiting the centrally located branch on Lake Road will also be welcomed with a modern and open plan design.

"We're delighted our refurbished Takapuna branch features the latest version of our Smart ATM, as well as iPad and teller technology," said ANZ Takapuna Branch Manager Angela Fay.

"This new technology will help make visits to the branch more efficient, and allow customers to do more banking outside opening hours."

A fast deposit box will help local businesses make end-of-day deposits even if they miss seeing the customer service team. The external facing Smart ATM also allows customers to insert cash and cheques directly into the ATM for deposit.

"A Cash Exchange Machine in a new 24/7 lobby allows customers to insert cash and receive coin change, useful for stall operators at the popular weekend markets and for local businesses to manage their shop floats," Ms Fay said.

ANZ Takapuna has a team of 12 retail staff, as well as five business banking and a wealth specialist onsite to help the area's mix of residential and commercial customers.

The branch is open six days a week:

- Monday – Friday 9am – 4.30pm
- Saturday 10am – 2.00pm
